

IceBlaster

Valley Panel - Shingle or Woven Valleys VP-SV

Overview

The IceBlaster VP-SV is specifically designed to prevent ice dam and icicle build up in the valleys, along dormers, around chimneys and skylights, and any area where a defined melt path is needed. The highly efficient system is comprised of an aluminum extrusion base panel which houses two runs of industrial grade self regulating heat cable. Installation is simple. Base extrusion mounts over existing valley shingles with a suitable adhesive. Route two runs of industrial grade self regulating heat cable. Pre-finished aluminum cover panel clamps on base panel for maximum heat transfer. Route any heat cable in gutter and downspout(s). The IceBlaster VP-SV can be combined with other EMS products for a comprehensive ice dam prevention system.

NOTE: Some roof assembly features omitted for clarity. IceBlaster products are fully compatible with most roof styles and systems. IceBlaster Valley Panel can also be installed metal W valley styles.

Performance:

2 runs of self-regulating industrial grade heat cable

Base Extrusion:

6063 T5 Aluminum

Cover Panel:

0.040" Kynar 500 pre-finished aluminum

Warranty:

50 yr on base panel
30 yr on cover panel finish
10 yr on supplied heat cable
See Warranty for complete details

Supplied Components:

Base extrusion
Panel cover
Splice covers
Mounting hardware
C/US Listed self-regulating heat cable

Options:

110-130v or 208-277v in 5, 8, & 10 watts/foot self regulating heat cable

Standard Colors: Medium Bronze, Matte Black, Dark Bronze, Hartford Green, Mansard Brown, Slate Gray, or Charcoal Gray

Additional Cost Options

20 oz. solid copper

Special Order Colors: Complete line of UnaClad aluminum colors

Standard 5' & 10' lengths, can be cut to length
